If you have any planting problems—drop us a line. Gurney's are here to help you whenever we can.

Vol. XCVII | Spring 1963—Gurney Seed & Nursery Co., Yankton, S. D. | No. 2

How's This For Gourds?

Mrs. D. Madsen of Marinette, Wis. wrote us she used one 20c pkt. of Gurney's gourds and harvested 2 cantaloupe cases full plus 1 bushel basket full (see picture) plus a half bu. basket of beautiful gourds.

She says if any other Gurney customers are looking for decorations that are unusual—this is it. (See flap of order blank).

Send for our BIG FREE CATALOG

We still have available copies of our BIG, COMPLETE, Gurney Spring Catalog. Though there are lots of bargains for you in this book, there may be other plants, seeds and baby chicks you may be interested in. Our spring catalog will have them for you.

All you need do is write, "Send Me Your Spring Catalog" on the bottom of your order and we'll rush a copy to you. Or, a postcard will do.

You'll enjoy "browsing" through all 56 pages and if it's planting stock you're looking for—you will find we have what you want.

All Gurney Nursery Stock is FULLY GUARANTEED

Some nurserymen, lately, have been raising a "hullabaloo" about how they guarantee nursery stock. Well, we've been doing that for over 60 years and certainly thought everybody should, even if they didn't.

With us, it has been satisfaction guaranteed or money back for years. That's the Gurney way of doing business and wouldn't think of any other way. And, unlike some guarantees full of hedges and half promises Gurney's is plain spoken and in plain English, and we live up to every word of it.

Gurney's NURSERY GUARANTEE

We guarantee all our nursery stock to be state inspected, free from disease, true to name, and first-class in every way.

Examine the nursery stock carefully when you receive it. If you are not pleased with it in every way, return it promptly at our expense and we will replace it at once, or refund your money in full, whichever you prefer.

After you have planted it, if it fails to grow, owing to weather conditions or other factors over which we have no control, we will adjust for those losses once by issuing a credit for one half (50%) of the original purchase price providing your loss is reported to us not later than August 1, 1963.

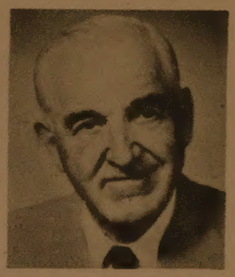
Plato

George Gurney's Corner:



With planting time almost here, I want to use "my own corner" here to urge everyone again to get out and plant a little this year. First, a few fruit trees or berries and even a small garden will cut a surprising amount off your grocery bill. And then some lovely roses, shrubs and flowers here and there in your yard will not only give you worlds of beauty, but they add tremendously to the value of your property. You don't have to plant a lot—even a little bit makes a world of difference.

But most of all, getting out and digging in the good earth is good for us all. It's one of the best hobbies and recreations there is. You get exercise, you are outdoors in the fresh air, and creating something valuable and beautiful from a small seed or plant seems to answer something in our nature that we require. Gardening is good for us all.

We've worked hard to assemble all these planting bargains. Some are brand new and you'll want to try them. Some are old favorites at special spring prices. You'll enjoy looking through the book I'm sure.

But send your order NOW. We'll ship at proper planting time and give you some real service. We're here to serve you on Top-Quality, FRESH, LIVE (not dried-out) inspected nursery stock. We're proud of our quality. Hope to see your order soon.

P.S. And don't forget—there's always an extra FREE gift in each shipment from Gurney's. It's our way of saying thank-you to you.

Geo. W. Gurney

State Approves Gurney's Stock

When your big package of Gurney's nursery stock arrives, take time to notice the label. You'll find a special notice on it signed by the responsible state officials certifying that they have inspected our nursery and found it clean and free of disease.

This means a good deal to you. You don't want to buy from a nursery that can't get this approval. You want healthy stock and you can be SURE of it, when you order from Gurney's.

Your Check Is Good at Gurney's

Don't fret about how to send money in your order. Checks are generally the safest way and we accept them all. Gurney customers are honest people.

Of course, money orders and bank drafts are equally safe to mail, but they cost a little. We don't recommend generally the sending of cash. Lots of people do, but it's generally better to use checks, bank drafts or money orders.

Gurney's Customers "Best"

There's something just a little different and better about a Gurney customer. Generally they're good gardeners or want to be and want the very best in planting stock.

But, more than that, they just can't seem to rest until they "spread the word" among friends and neighbors about the extra-quality of Gurney stock. Time and again, we get orders from new customers who say, "So and So, our neighbor, gave me your catalog and told me to be sure and order my seeds and plants from you."

This personal word is better than all the advertising in the world and is probably why Gurney's have one of the most loyal groups of customers anyone could ask for. We can make you one, too.

$5.00 For Your Picture

Want to earn an easy $5.00 bill? If you do, here's how: Send us a snapshot of yourself, your family, your garden or whatever. It must be an extra print as we can't return it, but, if we can work it in one of our catalogs we'll mail you a $5.00 check at that time.

Gurney customers always seem to be interested in other Gurney customers. They like to see what others are doing, just like you do. That's why we appreciate so much the snaps you send in. Won't you do it, too?

About Gurney's WINDBREAK STOCK

All varieties of windbreak stock listed at the left are ABSOLUTELY hardy. I suggest you plant several varieties in your windbreak rather than all one kind. This means more effectiveness and less chance of loss through insects or disease. Don't forget to prune severely at planting time (cut off ⅔ of the top growth). Send for our free windbreak bulletin.

Why Plant A Windbreak

Windbreaks usually serve two purposes: First, they furnish protection to the buildings, feed lots, orchards and garden; secondly, they supply a certain amount of firewood and sometimes lumber or timber for rough construction or repair work. Farmers know windbreaks really pay.
